

R-Ladies Sydney Launch - Lightning Talks!

20 June 2018

Get to know the Sydney R-Ladies!

It's a launch event, so why not get to know your fellow R-Ladies? As an ice-breaker, every handout has a "bingo card". See if you can find someone who...

Has a cat	Thinks Messina is overrated
Has 3 siblings	Owns reusable stainless steel straws
Taught themselves to code	Can explain why Snapchat exists
Has never been to NZ	Is a member of Meetups not related to data science
Uses plastic free shampoo/conditioner	Has at least one laptop hex sticker
Is a Mac user	Is a data scientist
Wants to be an academic	Wants to be a data scientist
Has a pet with a geeky name	Has used a library card catalog

The items on the bingo cards have been randomised – using R, naturally – so everyone should have a different list of things to find!

Want to live tweet about the talks?

name	twitter_handle	talk_title
Jessica Lee		Why I R?
Emi Tanaka	@statsgen	Making a Shiny interactive web application using R
Wendy Wong	@abc_wendsss	Transitioning from financial planning to data science
Sarah Romanes	@sarah_romanec	My long journey learning R - then and now
Zoe Meers	@zoe_meers	ggparliament: Parliament plots in the tidyverse
Lovisa Lannesand		From Excel to R in the world of finance
