

Lightning Talks Handout

R-Ladies Sydney

20/06/2018

Get to know the Sydney R-Ladies!

It's a launch event, so why not get to know your fellow R-Ladies? As an ice-breaker, every handout has a “bingo” card. See if you can find someone who...

Can explain why Snapchat exists	Prefers Python to R
Is a PhD student	Enjoys cooking
Can play an unusual instrument	Has at least one laptop hex sticker
Has kids	Has a (mini) library of stats textbooks
Commutes to work on a bike	Teaches statistics
Likes to run	Has run an experiment that didn't work
Is new to using R	Is an academic
Has 3 siblings	Remembers floppy disks

The bingo cards are randomised – using R, naturally, because we are stats nerds! – so everyone should have a slightly different list of things to find!

Want to live tweet about the talks?

name	twitter_handle	talk_title
Jessica Lee		Why I R?
Emi Tanaka	@statsgen	Making a Shiny interactive web application using R
Wendy Wong	@abc_wendsss	Transitioning from financial planning to data science
Sarah Romanes	@sarah_romanesh	My long journey learning R - then and now
Zoe Meers	@zoe_meers	ggparliament: Parliament plots in the tidyverse
Lovisa Lannesand		From Excel to R in the world of finance
Kate Dodds	@kate_munnik	Learning the lingo - An R newbie's perspective
Charles Gray	@cantabile	My experience at runconf18

- Don't forget to @ the speaker in the tweet :-)
- Include the #rladies hashtag. Adding @rldiessydney optional
- Include a picture! (speaker or slides)
- Speaker info is on the blog: <http://rldiessydney.org/posts/lightning-talks/>

Get to know the Sydney R-Ladies!

It's a launch event, so why not get to know your fellow R-Ladies? As an ice-breaker, every handout has a “bingo” card. See if you can find someone who...

Grew up in a small town	Knows regular expressions
Has met Hadley Wickham	Does yoga
Has a Twitter account	Knows C++
Has written their own R package	Grew up on a farm
Has gone scuba or sky diving	Grew up in Sydney
Loves cheese	Remembers floppy disks
Can explain why Snapchat exists	Knows an RStudio trick you don't
Likes to run	Works in finance

The bingo cards are randomised – using R, naturally, because we are stats nerds! – so everyone should have a slightly different list of things to find!
